YORKTOWN HEIGHTS, NY

Coloring isn't just for kids. Not only is it fun, but many people find it a perfect way to tune out worries and tune in to peace and beauty. A Mandala is a beautiful symmetrical design which many cultures use as a tool to facilitate meditation.

By combining the Zen of the Mandala and the child-like delight of coloring, rediscover the joy of simplicity:

Simple relaxing coloring, simple warm beverages, simple comfort cookies and simply wonderful company.

We'll supply the coloring materials and refreshments, all you need to do is provide the company!
