

# Open Discussion

## LIVING WITH NEUROPATHY

Open to People Living With Breast , Ovarian & Gynecological Cancers

**YOU ARE NOT ALONE.** Many of you have brought to our attention the challenges of living with neuropathy. Peripheral neuropathy is a side effect linked to certain chemotherapy drugs.

This open discussion provides a venue to connect and talk openly with other women who have experienced neuropathy symptoms, both long-term and short-term.

**Wednesday, Nov. 29, 2017**

7 - 9 pm

Support Connection Office  
Yorktown Heights, NY

This is not an educational forum; it is a discussion group where concerns and information will be exchanged.

Please join us as we share our experiences and ideas on how to cope.

A Peer Counselor will lead the discussion.

Pre-registration is required.
