Relax, unwind, and enjoy yourself in this virtual art program where you will learn how to draw animals.

Learn to use basic shapes to draw animals, with a focus on capturing portraits of beloved pets. There will be a step-by-step guided tutorial for the first hour, followed by an hour of practice drawing an animal of your choice, whether it be a furry, scaly, or smooth creature. Photos of pets or other animals to use as reference are encouraged but not required.

Appropriate for all skill levels from beginners to more advanced.

Materials needed are simply pencil and paper, but participants may use other drawing materials if they wish. The instructor will show how to draw using pencil, pen, marker, and color pencils.

Artistic Advancement
Director at The Art Effect.
